REDDIFAST GROUND CLEARER

MAKES LIGHT WORK OF CLEARING UNDERGROWTH

USER MANUAL FOR THE REDDIFAST GROUND CLEARER

INTRODUCTION

The Reddifast Ground Clearer is a unique, British designed and manufactured machine with a 6hp Briggs & Stratton engine. It has been designed for the very specific function of clearing overgrown land. It is of robust construction and very fit for purpose.

The machine is certified with the CE Declaration of Conformity.

PLEASE READ THIS LEAFLET BEFORE USING THE MACHINE AND RETAIN FOR FUTURE REFERENCE.

USER INSTRUCTIONS - SAFETY

The machine weighs approximately 38 kg.
If necessary, obtain assistance to remove from packaging.

Take care when lifting the machine.

It is recommended that the operator wears heavy shoes, gloves and safety glasses at all times when using the machine.

CAUTION!
DO NOT PUT HANDS OR FEET IN THE PROXIMITY OF THE CUTTING BLADE WHEN OPERATING THE MACHINE.

During operation the machine may displace small stones which can be discharged at high velocity under the guard. People and animals should NOT be in close proximity to the machine while in use.

Always check BEFORE USE that the blade is NOT in contact with the guard and that the cutting blade has free clearance.

Before starting the machine make sure you have unleaded petrol in the fuel tank and that there is oil in the sump - do not over fill.

NEVER remove the rubber safety curtain at the back of the machine.

To immediately stop the machine while in use release the safety handle.

STARTING THE MACHINE

Switch on the fuel tap.
Hold up the black handle to the chrome handle - this releases the brake on the engine and allows the blade to turn.
Pull the starter cord.
If engine fails to start repeat the process.

FAULT FINDING DIAGNOSTIC

If the machine does not start you may have flooded the spark plug. Remove the plug and dry off.

If the Ground Clearer suffers loss of power, stop the machine. Remove the air filter and clean it. Refit the filter and restart the machine.

AFTER USE / STORAGE

Clean the exterior of the machine with warm, soapy water using a soft brush or cloth. It is good practice to wash off with a hose pipe, especially to remove the build up of grass around the blade housing and the underside of the engine. TAKE CARE WHEN CLEANING AROUND THE BLADE AREA.
Store the Ground Clearer in a dry place. To assist storage the handle will fold down flat when the handle wing nuts are loosened.

GUARANTEE

Reddifast Steels Ltd guarantees this product against manufacturing defects. We will repair (or replace at our discretion) if a manufacturing defect occurs within the guarantee period. This is subject to the correct use of the machine.

The guarantee period is 1 year from date of purchase to cover parts and labour. To obtain a repair under the guarantee please contact Reddifast.

THE GUARANTEE WILL NOT APPLY IF:

You cannot provide dated proof of purchase.
The product has been resold by the original purchaser.
The product has been modified from its original specification.
The fault results from abuse, neglect, maladjustments or accidental damage.
Damage has been caused by allowing the machine to strike solid objects.

Should you require spare parts please contact Reddifast. Any damage caused through the fitting of parts not supplied by Reddifast will not be covered by this guarantee.

THE GROUND CLEARER - KEY PRODUCT BENEFITS

- Saves time and effort.
- Easy to push over uneven ground - even by the elderly.
- Productivity 4 - 5 times the output of conventional strimmers.
- Will clear overgrown sites, up to approx 1.5 acres per day.
- Machine cutting path 450mm.
- Safety handle will stop the machine immediately when let go.
- Safety - the operator is at the back of the machine.
- Safety - rubber curtain at the back prevents debris flying out - under no circumstances should it be removed.
- Competitively priced with low cost of ownership.
- Full back up service and parts.
- Works in boggy conditions.
- Mulches as it cuts, reducing clearing up time.
- Fold down handle ensures the machine will fit in most reasonably sized cars for transportation.
- Nimble enough to cut right up to the trunk of trees without damaging the tree.
- There is an electric start version for the elderly or disabled.
- Available from stock.
